### TIP:

Cut-off points for any year are the weighted cluster points for the last competitively placed applicant. i.e.

*Suppose the Bachelor of Arts programme at an institution requires only 10 students but 13 applications are received.*

*The best performing 10 applicants will be picked and the that are 3 left out will be considered for their other choices. However, the weighted points for the last (10<sup>th</sup>) student will form the cut-off points for the programme at the institution.*

### NOTE:

- The cut-off points are not predetermined and will not be available while applications are ongoing.
- Cut-off points vary by programme, institution and application year.
- Previous years’ cut-off points are provided to guide applicants during the application process.

3. TVET applicants only use the minimum grade and subject requirements to gauge their qualification to a programme.
